Outcome Project
Information Technology / Healthcare

Outcome Project is a technology and data science company that empower health researchers and innovators to transform their knowledge into impactful, safe, and ethically sound research and products that truly change lives.

José Bartolomei
jose.bartolomei@outcomeproject.com

Puny.bz **Information Technology**

All-in-one platform for bookings, sales, and payments. Made in Puerto Rico for entrepreneurs.

Saúl González Alonso
saul@puny.bz
www.puny.bz

Supply Veins **Information Technology**

Supply Veins brings every supplier message, document, and task into one intelligent workspace organized, visible, and shared across your company.

Charles Masters Rodríguez
charles@supplyveins.com
www.supplyveins.com

Zato Pet Food **Consumer Goods**

Zato Pet Food manufactures healthy meals with grass-fed, grass-finished beef, organs, and local vegetables.

Pedro Valero Suárez
pvalero@zatopr.com
http://www.zatopr.com

BioLeap

3 Generations

A Life Sciences innovation incubator program led by the Puerto Rico Science, Technology and Research Trust to increase economic development through innovation and entrepreneurship in the life sciences sector.

AVIDDATA **Artificial Inteligence**

Based on Artificial Intelligence and Machine Learning, Avid Data's technology tackles early detection and management of health-related illnesses, empowering healthcare providers with actionable insights that drive better patient outcomes and operational efficiencies.

Eduardo Tosado, Ph.D.
eduardo.tosado@upr.edu

Burble **Therapeutics / Pharmaceuticals**

A game-changing nasal irrigation system for daily wellness and respiratory health. Designed to combat air pollution, airborne particulates, and allergens that weaken the immune system to prevent bacterial or fungal infections in the sinuses and lungs.

Luisam Tarrats, MD
ltarrats@letsburble.com
https://letsburble.com

Cultimar Technologies **Agrotech / Aquaculture**

Cultimar Technologies is a technology startup that is expanding the capabilities of aquaculture to deep water fish with the goal of developing local seafood production hubs across the Caribbean, guaranteeing food security for future generations. economic growth

David Miranda, Ph.D.
dmiranda@alum.mit.edu /
dmiranda@cultimartechnologies.com
https://cultimartechnologies.com/

Dynamiko Pharmaceutics LLC
Therapeutics/Pharmaceuticals

Dynamiko Pharmaceutics technology improves favorable survival outcomes and quality of life to Triple negative breast cancer (TNBC) patients.

Michelle M. Martinez, PhD
pharmadynamiko@gmail.com

EC-Safety (REOFTech) **Healthcare / Biotechnology**

EC Safety is the only AI-first, bilingual EHR platform focused on Alzheimer's dyads—integrating wearables, sensors, and predictive tools to transform caregiving, reduce burnout, and unlock a $40B+ market.

Antonio Sosa Pascual
asosa@reofcapital.com / antonio@ec-safety.com
https://www.ec-safety.com/

Genos **Healthcare / Biotechnology**

GENOS.bio is Puerto Rico's first full-spectrum bioinformatics contract research company helping scientific teams analyze complex biological data faster.

Osvaldo Rivera, PhD
orivera@genos.bio
https://genos.bio/

Ludi **Health Tech**

Data and analytics platform that asses and collect Lupus disease activity and consistent
data that provides researchers a better understanding of patients needs.

Oscar Soto Raíces, MD
osoto@mmr-pr.com

Ama Earth Group **Environmental**

Ama Earth Group's B2B SaaS platform empowers environmental professionals with cutting-edge AI and software solutions to streamline report generation, impact assessments, and data management, enhancing efficiency and precision in conservation and climate initiatives.

Isiah Cruz
isiah@amaearthgroup.com
www.amaearthgroup.com

Baby Abrazo **Digital Health**

Evidence-based neurobehavioral programs equip parents, caregivers, and healthcare organizations with practical tools to reduce stress, strengthen relationships, and foster optimal brain development.

Dr. Edith Brignoni
info@babyabrazo.com
https://www.babyabrazo.com/

Consusis, Inc. **Medical Device**

In just 10 seconds, using any device with a camera, Consusis can diagnose the 1 billion people suffering from sleep apnea, enabling them to receive the treatment they need before
developing the chronic health issues associated with the condition.

Damir Wallener
damir@consusis.com
consusis.com

Diversia Health **Digital Health**

Diversia is the preferred platform for recruiting diverse participants in clinical trials in Puerto Rico. With culturally sensitive recruitment strategies and a strong network across the island, we help researchers access a wide variety of participants.

Angel Hoyos
info@diversiahealth.com
http://diversiahealth.com/

Equiply **Healthcare / Biotechnology**

Equiply is the go-to capital planning and procurement intelligence platform. Our data-driven lifecycle analytics, integrated budgeting tools, and transparent vendor workflows empower HDOs to strategically plan equipment investments and streamline purchasing.

Oscar Misla
oscar@equiply.io
https://equiply.io

iHnnova **Medical Device**

A patented (U.S. Patent 10,736,684) handheld laparoscopic induction heater (LIH) and transrectal induction heater (TRIH) for treatment of pancreatic cancer (PanC) and prostate cancer (PCa).

Dr. Jorge Castro
jorge.castro@ihnnova.com
www.ihnnova.com

MedETechNi **Medical Device**

MedETechni is a company dedicated to developing advanced solutions in the field of medical technology. One of our main products is Virgilio Rays, a UVC treatment device designed for disinfection and acceleration of wound healing, especially in patients with diabetic foot.

Dr. Kevin Morales Chamorro
kevin.chamorro@medetechni.com
https://www.medetechni.com/

Nura Health **Diagnostics**

A first of its kind non-invasive test for Endometriosis that shortens the path to diagnosis from 8-12 years to 3-5 Days.

Dr. Idhaliz Flores
idhaliz@getnura.com
getnura.com

Omiquity Health **Big Data / Artificial Intelligence**

Omiquity Health is the trusted precision healthcare partner. Based in Puerto Rico, our AI-driven genomic tools and culturally relevant digital platforms break down barriers like cost and distance, delivering personalized diagnostics and clinical trials once out of reach.

Carlos Pabón
carlos.pabon@omiquity.com
www.ihnnova.com

Prisma Diagnostics **Diagnostics**

For clinical laboratories in Puerto Rico and the United States that want to improve the accuracy and efficiency of diagnostics. Our locally manufactured laboratory solutions, advanced diagnostic technologies and expert support allow to streamline testing processes, ensuring faster and more reliable results.

Dr. Ivelisse Martin
ivelissemartin@gmail.com

ReleaseBio **Therapeutic / Small molecule**

A first generation of small molecule inhibitors (SMIs) targeting demonstrated efficacy in reducing the proliferation of Inflammatory breast cancer (IBC) cells. Currently generating data to fill a new patent with the second generation of LCN2 inhibitors.

Dr. Pablo Vivas
pablo.vivas@upr.edu

T-CAN **Medical Device**

T-CAN revolutionizes Laparoscopic and Arthroscopic surgery that enables less invasive procedures, resulting in significant time and cost savings, while minimizing patient risks and enhancing comfort. It is also expected to reduce inflammation as it limits fluid accumulation, potentially improving patient recovery outcomes.

Dr. Carlos Conde
cconde@condeinduservices.com

Yagüez Diagnostics **Diagnostics**

Diagnostic tool that provides UV-vis spectroscopy provides a fast and accurate method for detecting sulfhemoglobin in the blood, facilitating the diagnosis of sulfhemoglobinemia in patients.

Dr. Juan López Garriga
juan.lopez16@upr.edu

Capicú Technologies LLC
Healthcare / Biotechnology

Powerful AI directly, on low-cost medical and lab devices to analyze data on the spot without relying on the cloud or expensive hardware. Unlike generic Edge AI platforms, it focus on biology & healthcare and tune each model to a specific device and workflow, so partners get secure, offline AI where competitors need costly chips and constant connectivity.

Sebastián Cruz Romero
scruzromero@capicu.ai

ClinBiomap **Healthcare / Biotechnology**

ClinBiomap provides a clinician-supported, AI-enabled platform that transforms raw biomarkers, multi-omics, and clinical variables into clear, actionable, disease-specific insights.

Marcos Ramos-Benitez, PhD
mjramos@psm.edu

FC Health Hub LLC **Healthcare / Biotechnology**

FC Health Hub technology, DoseGrid, provides a digital IV Workflow Management System (IVWMS) that captures key preparation steps, extracts order information using OCR, and enables structured pharmacist verification. It transforms IV preparation from a largely manual, retrospective process into a standardized, traceable, and auditable workflow for quality improvement.

Jonathan Figueroa-Colón
jfigueroa@fchealthhub.com

KDL LLC **Wellness**

Pain management with an ointment that has a patented Scent Transition Technology.

Roberto Colón
coloncruzr@gmail.com

Liberri LLC **HealthTech**

Liberri LLC technology, HOWEM, transforms behavioral data into preventive action. It enables companies to optimize human performance, ensure manufacturing continuity, and safeguard patients from defective or delayed medicines.

Lizandra Bernier-Rivera
lbernier@liberri-llc.com

Mind2CREATE Inc. **HealthTech**

Smart orthopedic boot that uses AI-driven feedback to improve patient recovery quality in an accelerated way compared to traditional orthopedic boots.

Dr. Eduardo Ortíz Rivera
eduardo.ortiz7@upr.edu

Novo Heal **Healthcare / Biotechnology**

Novo Heal promotes functional and reconstructive healing of tissues such as skin (chronic and acute wounds) and vocal folds (there's no treatment for the vocal fold lamina propria). The material helps guide the host tissue response to improve healing while avoiding scar tissue formation.

Donald Freytes
dofreyte@ncsu.edu

ProteinDynamic Solutions
Healthcare / Biotechnology

Technology that de-risks preclinical candidate selection, provide end-to-end comparability assessment, and accelerate speed to market.

Belinda Pastrana
belinda.pastrana@pdsbio.com

QuantumCare LLC **Healthcare / Biotechnology**

Their technology, ApoScript, addresses key challenges faced by independent pharmacies by streamlining operations and reducing errors. It removes the need for manual data entry, minimizes dispensing mistakes, and automatically selects the most cost-effective manufacturer for dispensing.

Angel González Bravo
angelg@quantumcarepr.com

Stream Sampling Kit **Healthcare / Biotechnology**

The device allows continuous monitoring of pharmaceutical products with minimized sampling bias (traditionally known as a big problem in Pharma).

Dr. Rodolfo Romañach
rromanac@gmail.com

TOA LLC **Healthcare / Biotechnology**

Turn local organic waste into high quality insect protein, fertilizer and biogas, solving the problems of costly imported feed, unmanaged food waste and a lack of a sustainable energy source.

Abdiel Chaparro Ríos
abdielchaparrorios@gmail.com

Vantheon **Healthcare / Biotechnology**

Prototype that targets the core coordination and trust problem in healthcare. Enabling healthcare systems to compute trust and attribution in a consistent, transparent way across fragmented data and organizations, so that outcomes, coordination quality, and payments can finally be aligned.

Alejandro Méndez
amendezpublichealth@gmail.com

VidaLens, Inc. **Healthcare / Biotechnology**

Imaging blood diagnostic device that can test for 150+ tests all at once faster and cheaper than any technology on the market, minimally invasive and does not cut or dilute the sample and without the need for staining blood.

Paddy Conolly
paddyjconnolly5@gmail.com

Wellbyn **Healthcare / Biotechnology**

Wellbyn uses artificial intelligence to solve inefficiency and communication gaps in healthcare clinics. The platform centralizes scheduling, documentation, and patient interactions - automating repetitive administrative tasks like rescheduling, reminders, and coding suggestions. Wellbyn helps clinics reduce no-shows, increase revenue, and deliver a smoother healthcare experience.
